Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-19, 31-35, 46-48, 52-54, and 55-58, drawn to a device disabler based on the transmission state, classified in class 701, subclass 48.
 - II. Claim 37, drawn to a hydraulic device disabler based on low hydraulic fluid, classified in class 701, subclass 29.
 - III. Claims 42-45, drawn to a lubrication system, classified in class 701, subclass 30.
 - IV. Claims 49-51, drawn to a rear view display, classified in class 348, subclass 113.
 - V. Claims 20-30, and 36, drawn to a device disabler based on the position of a person, classified in class 701, subclass 45.
 - VI. Claims 38-41, drawn to vehicle speed control based on position of vehicle devices, classified in class 701, subclass 97.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I through VI are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as preventing use of a device when a vehicle is moving, invention II has separate utility such as preventing damage to hydraulic equipment, invention III has separate utility such as keeping a machine lubricated, invention IV has separate utility

such as preventing a vehicle from backing into an obstacle, invention V has separate utility such as preventing the machine from hurting an operator or coworker, invention VI has separate utility such as preventing damage to the working part of the machine. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for Groups I through VI is not required for any of the other of Groups I through VI, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian J. Broadhead whose telephone number is 571-272-6957. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black can be reached on 571-272-6956. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
